### 4.MEETING PARTICIPATION ADVICE

- For the Integrated meetings of IOGOOS annual meeting and its allied program meetings (IIOE-2, IOCINDIO, IndOOS, IRF, IORP, SIBER & IOGOOS), please note that non-affiliates (i.e. non-members) of those groups may be accepted into some of the meetings - as observers. This is to promote opportunistic collegiate interaction, relationship building and identification of synergies and opportunities for collaborations between the international groups that are meeting and local/regional stakeholders that may be present during the week.
- However, please also note that some of the meetings will be closed and will only involve group 'members' - this is due to the nature of discussions to take place, being either of a business or private nature.
- To enquire about possible attendance at individual meetings please refer (by email) any requests for attendance as an observer to the 'principal contact persons' listed in the table below for the respective meetings in question.
